

# Roads to EMI

(English-Medium Instruction)

Content courses taught in English

Self-paced online module for EMI lecturers

Sign up

For lecturers teaching their content courses in English, H-INET, and Mofet are providing access to our EMI Support Module for participating institutions. The concrete recommendations in this module can help you make your course more EMI-compatible before the semester opens in December.

As you go through the module, if you have any questions related to EMI, please reach out to Dr. Linda Weinberg and Dr. Ingrid Barth at [emimodule@h-inet.org](mailto:emimodule@h-inet.org)

This module was developed by Linda and Ingrid to provide practical guidelines and support for content lecturers who teach their courses in English.

Our EMI Module is structured as a self-paced learning guide that offers:

- an in-depth understanding of the pedagogical and language-related challenges facing EMI students.
- practical recommendations and best practices for overcoming these challenges.

The Module comprises four units, with flexible navigation that lets you move seamlessly between units, and typically requires between 3 to 5 hours to complete.

To register for this module, please complete the registration form using your institutional email address and select your institution from the provided list. If your institution is not listed, please reach out to us at [cefr@macam.ac.il](mailto:cefr@macam.ac.il) for further assistance.

Stay safe,

The H-INET & MOFET Team
